17 April 1968

MEMORANDUM FOR: Chief, Support Services Division, TSSG/NPIC

ATTENTION :

SUBJECT : Installation Site for the High Precision Stereo Comparator

1.

[ ] has been awarded a contract to fabricate the High Precision Stereo Comparator. The fabrication of this instrument is to be in accordance with the specifications that evolved from the design and development contract recently completed by [ ] for NPIC.

2. The program schedule calls for the instrument to be fabricated, installed and completely checked out in 92 weeks. [ ] plan calls for the installation of the instrument in [ ] to commence the 73rd week of the program. The Contractor has agreed to supply NPIC with the environmental and utilities requirements for the instrument no later than 90 days from the start of the contract. The Contractor does not expect any significant change in the site preparation requirements that were discussed with [ ] at earlier coordination meetings.

3. The Contractor was authorized to proceed with the contract on 5 April 1968 so the following dates may be considered to be key dates if the program is to be completed on schedule.

a. 5 July 1968 - Firm requirements to be levied on NPIC for site environment and utilities.

b. 1 August 1969 - Site Preparation completed by NPIC and ready for installation of the instrument.

c. 1 January 1970 - Instrument and Clean Room Site completely checked out and ready to be turned over to the Imagery Exploitation Group.

4. It is requested that appropriate site preparation plans be initiated to insure completion of the environmental and utilities requirements prior to delivery of the instrument.

[ ]  
Chief, Development Engineering Division, TSSG
